The Totally Wicked Stadium, McManus Drive, St Helens WA9 3AL

Dear parent/guardian/carer.

Your child has or is currently taking part in the inspiring futures programme ran by the Saints community development foundation. The next phase of the programme is where we invite family's down to the Shining Light Centre, Sutton Manor, WA9 4AT. The Session will be held **Monday 14th February 2022, 18.00 to 19.00**.

The '**Connect**' strand will include the young person's immediate family, consisting of one session for approximately 60 minutes and based at a Rugby League facility. They will be delivered by Foundation staff in partnership with local agencies. These sessions are designed to enhance the relationships within the family setting and increase positive behaviours relationships and decisions.

Brighter futures is delivered in a 1 hour session. This is done by using interactive activities and group discussions, the time is split between classroom, physical team-building and problem-solving activities. Throughout learning, the sessions demonstrate how individual qualities and skills are transferable across different situations. Throughout the sessions there is a regular review of the family's goals and support or additional signposting for their future goals and aspirations. Celebrating all success along the way.

The young people enrolled into the Inspiring Futures programme will be expected to attend all of the session, both in and out of school. This will provide the greatest opportunity for positive change in different aspects of their life.

In addition to this we would like to invite just your child to the Shining Light Centre on the **Friday 18th February 2022 15.30 – 16.30** to an **outreach** session, joining in some fun and games, for example football, table tennis, basketball, dodgeball and rugby.

We look forward to seeing you.

Kind Regards,

Saints Community Development Foundation
